

**BINGO ADDITION (WITHIN 100) BOARD R**  
K-2nd Grade Mathematics

Put a counter on the number that matches your card.

| <b>B</b> | <b>I</b>          | <b>N</b>          | <b>G</b>          | <b>O</b> |
|----------|-------------------|-------------------|-------------------|----------|
| 36       | 29                | 19                | <b>FREE SPACE</b> | 48       |
| 37       | 35                | 59                | 49                | 53       |
| 68       | 61                | <b>FREE SPACE</b> | 69                | 88       |
| 76       | 85                | 38                | 80                | 57       |
| 96       | <b>FREE SPACE</b> | 71                | 58                | 34       |

## BINGO ADDITION (WITHIN 100) BOARD R

### K-2nd Grade Mathematics

#### **How to Play:**

1. Each player chooses a Bingo Addition Board.
2. Shuffle the Bingo Addition (Within 100) Card Set and place them face down in a stack.
3. Take turns choosing a card from the stack and adding the numbers to find the total.
4. BOTH players put 1 counter on their board where they see the total. If the total appears more than 1 time, players choose which space they would like to cover.
5. The first player to get 5 in a row wins.
