BINGO TENS (10-90) BOARD M
K-2nd Grade Mathematics

Put a counter on the number that matches your card.

B	I	N	G	O
10	30	90	60	20
60	10	30	50	40
40	20	**FREE SPACE**	80	70
70	50	20	40	90
30	80	50	10	60

BINGO TENS (10-90) BOARD M
K-2nd Grade Mathematics

How to Play:

1. Each player chooses a Tens Bingo Board (Board 1 or Board 2).

2. Shuffle the Tens Bingo Card Set (10-90) and place them face down in a stack.

3. Take turns choosing a card from the stack and sharing the number form of the representation.

4. BOTH players put 1 counter on their board where they see the number. If the number appears more than 1 time, players choose which space they would like to cover.

5. The first player to get 5 in a row wins.
