## Cause and Effect Graphic Organizer

### Cause

Male birds display bright colors

Water of humpback feeding grounds  
too cold for young whales

Each sea lion pup has its own scent

Porcupines and hedgehogs have sharp, dangerous  
spines

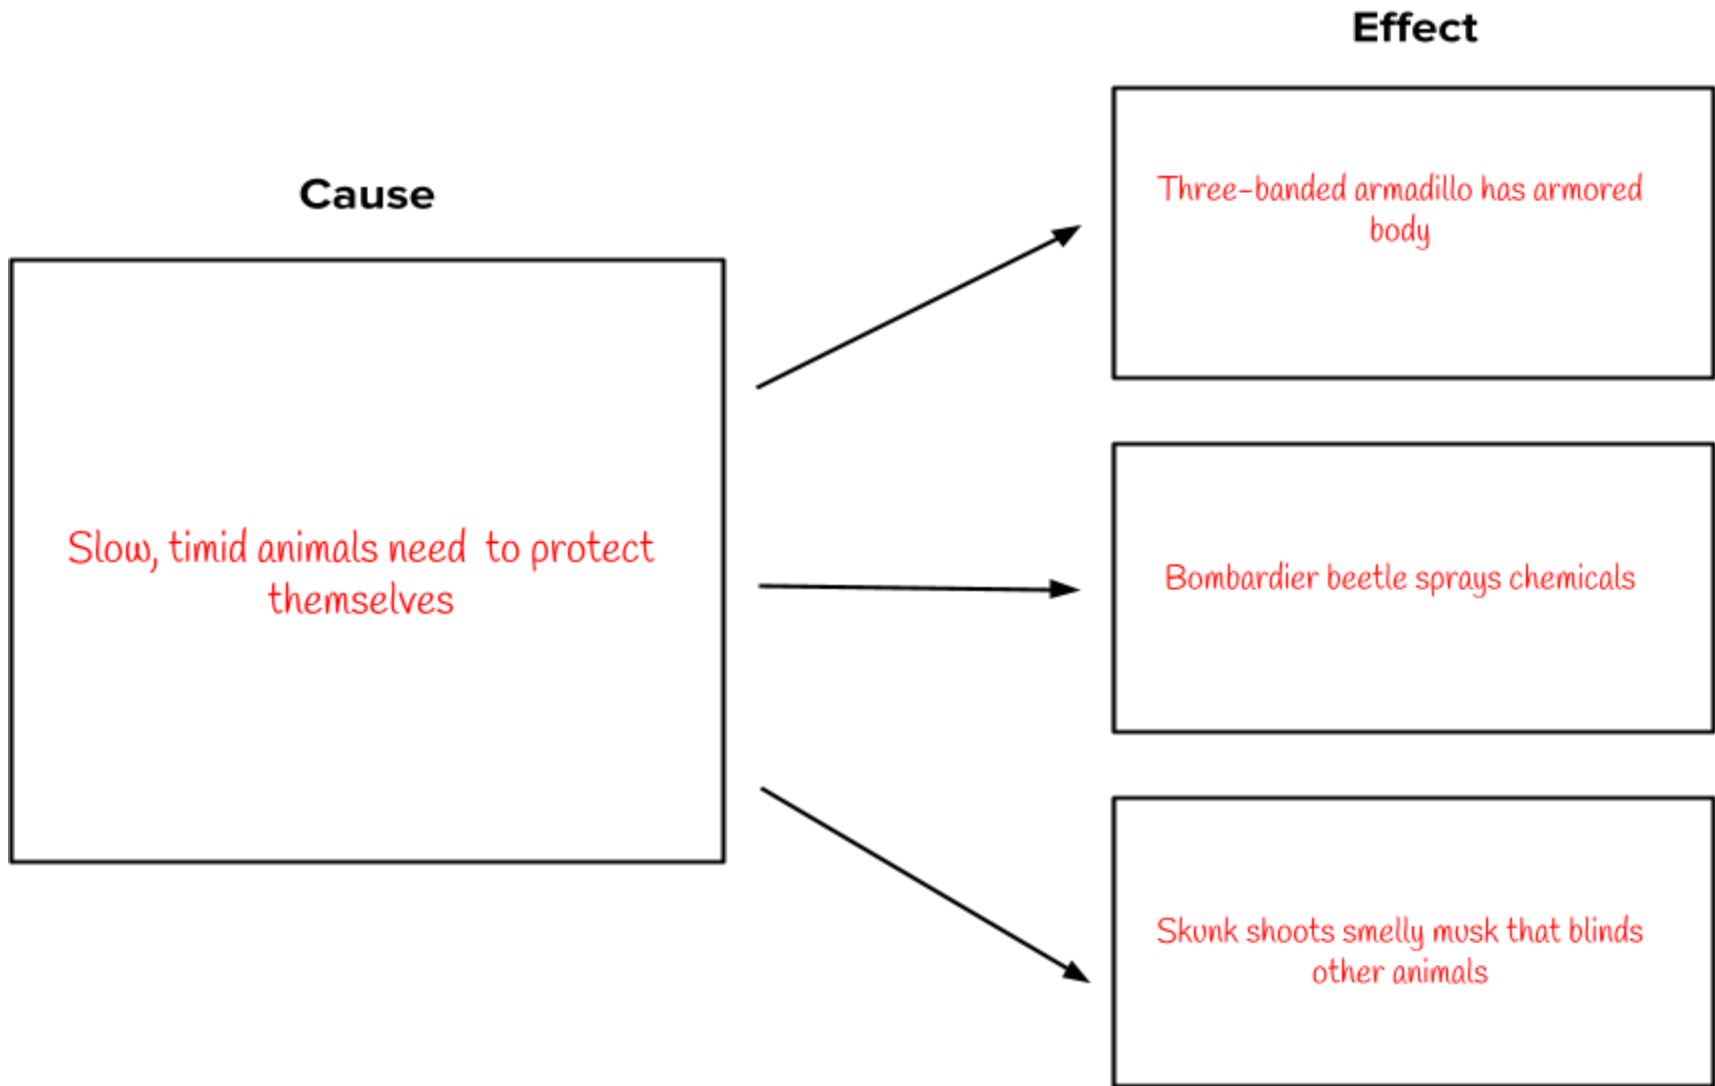

### Effect

Colors impress female mates (p. 20)

Humpbacks migrate to warmer waters to give  
birth (p. 25)

Mother sea lions can find pups in a crowd (p. 27)

Most predators stay away (p. 28)

## Cause

Deer graze in backyards

Alligators found in canals, golf  
courses, and swimming pools

Birds nest on buildings

## Effect

Animals adapt to human environments
