

Fishtank ELA Text List

2026-27 School Year

Every Fishtank ELA unit requires the use of authentic texts to implement daily lessons. This document provides the list of texts that schools need to source to use the Fishtank ELA curriculum, and a pricing estimate for what equipping one classroom with the texts for each grade level will cost.

Frequently Asked Questions

Where can I purchase these texts?

Fishtank ELA texts are all tradebooks, which means that you can purchase them from any text vendor. Fishtank Learning works with [The Reading Warehouse](#) and [Mackin](#) as our text vendor partners. Your partnership manager can make an introduction to our representatives at either or both vendors.

How many copies should I purchase?

Fishtank Learning suggests implementing schools purchase some titles as "Class Sets" (i.e. enough for every student and teacher in a classroom to have one in hand during class time), while others only require one "Teacher Copy" per classroom.

If you want students to be able to take books home, consider ordering enough so every student has a 1:1 copy of the "Class Set" recommendations.

In K–2 there are also Optional Teacher Copies, which should only be purchased if you intend to use the K–2 Warm Read Assessments.

How much will the texts cost?

For the most exact information, you should reach out to a text vendor to request a quote.

The Classroom Price Estimate for each course gives you a ballpark of the cost to equip one classroom (based on ordering 30 copies when a Class Set is recommended, and 1 copy when a Teacher Copy is recommended).

Why are some units labeled "Alt"?

Alt. designates an alternate unit. These units can be substituted into the recommended scope and sequence. Schools and districts should only purchase these books if they plan on teaching the alternate unit.
