Understanding the Animal Kingdom

Narration Organizer

Section #1 0:00–0:26	We see octopuses moving across the bottom of the ocean, climbing on a tank, and briefly changing color.
Section #2 0:27–0:50	There is a small, colorful octopus moving on coral, followed by a couple of large octopuses. Then, we see a close up of suckers. Finally, an octopus squeezes itself through a very tight space.
Section #3 0:51–1:01	An octopus is moving over coral and three hearts show up in the top corner. Then, a blue blood cell is shown. As another octopus crawls on the bottom of the ocean, three more hearts are shown.
Section #4 1:01–1:08	Next, a crab is on the beach, then a shrimp is shown on a rock or coral, and a hermit crab is in his shell.
Section #5 1:09–1:44	A shark is swimming. Then different octopuses are shown changing colors to match the environment, either rocks or coral. One hidden octopus suddenly shows itself and sprays black ink before swimming away. This section ends with a close up of suckers.
Section #6 1:45–2:40	Different octopuses shown on corals, swimming and moving around the ocean floor.

Choose a section to narrate. Be sure to use two different pronouns that match the noun they replace. Underline the noun and pronoun, and draw an arrow from the pronoun to the noun it is replacing. Include at least one simple sentence, one compound sentence, and one complex sentence.
