

THE TEN TRAIL GAME BOARD (SUBTRACTING 10)

K-2nd Grade Mathematics

Start	11 - 10	19 - 10	10 - 10	18 - 10	10 less than 13	28 - 10	20 - 10
							27 - 10
77 - 10	78 - 10	66 - 10	85 - 10	84 - 10	60 - 10		
59 - 10					10 less than 88		
10 less than 50			Finish	90 - 10	96 - 10	99 - 10	10 less than 16
45 - 10							58 - 10
46 - 10	68 - 10	10 less than 39	47 - 10	40 - 10	79 - 10	37 - 10	30 - 10

THE TEN TRAIL GAME BOARD (SUBTRACTING 10)

K-2nd Grade Mathematics

How to Play:

1. Put both counters on **Start** to begin. Partners take turns rolling a die and moving that many spaces on the board.
2. Each partner solves the problem that they land on using mental math (you may use a hundreds chart to help).
3. Take turns moving along the ten trail until the first player reaches the **Finish** square.
