

WHAT AM I? PROCEDURES

K-2nd Grade Mathematics

How to play:

1. Place the Solid Shapes cards in 2 rows face up in the center.
2. Shuffle the Clues cards and place them face down in a stack.
3. Player A: Turn over the top Clues card and read the clues aloud, one at a time, to your partner.
4. Player B: Listen carefully and choose the Solid Shape card that matches the clues. Explain why it matches.
5. Check together to see if the solid matches all of the clues.
6. Switch roles. Player B read the next Clues card and Player A chooses the matching Solid Shape card.
7. Continue taking turns until all matches have been made.
