

A	B	C
has at least 1 angle greater than a right angle	is a quadrilateral	has all equal sides
A	B	C
has at least 1 angle less than a right angle	is a trapezoid	has at least 2 equal sides
A	B	C
has at least 1 right angle	is a hexagon	has at least 1 set of parallel sides
A	B	C
has more than 4 angles	is a parallelogram	has no parallel sides

<p>A</p> <p>has angles of equal measure</p>	<p>B</p> <p>is a triangle</p>	<p>C</p> <p>has no equal sides</p>
<p>A</p> <p>has no angles of equal measure</p>	<p>B</p> <p>is a rhombus</p>	<p>C</p> <p>has at least 2 sets of parallel sides</p>
